TERMS AND DEFINITIONS

For the purposes of this document, the terms and definitions included in <[FSC-STD-01-002 FSC Glossary of Terms](#)>, and the following apply:

Forest Products Turnover:

- a) The Revenue of all certified and uncertified forest products; and
- b) The Revenue of all products containing wood or fibre, and all products containing non-timber forest components, including forest-based reclaimed materials regardless of the percentage.

NOTE 1: Forest products refers to wood products, pulp and paper products, and non-timber forest products as per <[FSC-STD-40-004a FSC Product Classification](#)>.

NOTE 2: Forest Products Turnover does not refer to 100% non-forest products that companies might produce.

NOTE 3: Forest Products Turnover does not refer to related services that a CH may provide to another organization. The related services a CH receives under an outsourcing agreement, that contribute to adding value of the product are already inherently included in the Forest Products Turnover figure and do not need to be incorporated in addition to the value. (Source: FSC-POL-20-005 V3-4)

Total Annual Turnover: Total revenue of an Organization derived from the provision of goods and services, less trade discounts, VAT, and any other taxes based on this revenue. In the context of Group CoC certification, turnover refers to the total annual revenue (gross annual sales) from all goods and services of an Organization, not just certified forest-based products (wood and non-timber forest products). The annual turnover refers to the most recently completed fiscal year. (Source: FSC-STD-40-003 V2-1)
