

CONCEPTUAL CONSULTATION REVISION PROCESS:

Revision of Requirements for Development and Maintenance
of Locally Adapted FSC Requirements (FSS and CWRAS)

Preliminary Changes

13 Key changes when developing and maintaining Forest Stewardship Standards and the Controlled Wood Risk Assessments

01.

Key intended outcomes for the revised procedure (FSC-PRO-60-006) to develop and maintain country requirements

02.
Outcome oriented FSS

03.

Simplified conceptual framework

04.
Three process types for developing and revising FSS and CWRAs

05.

Different working group compositions

06.
Consistent selection criteria for working group members for all processes

07.

Every FSS and CWRA will have a "responsible body"

08.
Fast-track option of accelerated process for urgent revisions of FSS and CWRAs

09.

New phase to shape process

10.
All drafts of FSS and CWRAs will be possible to test

11.

The FSS and CWRA drafts will be subject to at least two consultations

12.
FSS and CWRAs review period will be maximum 5 years

13.

Transition and period of validity of FSS and CWRA aligned with FSC-PRO-01-001
