

ANNEX A: ALIGNMENT OF ES IMPACTS WITH UN SDGs AND GBF

The United Nations (UN) guides countries and organisations in setting nature-targets to ensure the global health of the planet is well-maintained. In Annex A, we look at two of its frameworks - the Sustainable Development Goals (SDGs) and the Global Biodiversity Framework (GBF), comparing them with the 35 ES impacts from the ES Procedure. Find more information and the brand assets of SDG [here](#), and GBF [here](#).

The table is color-coded as:

- Purple for use by sponsors only
- No color for use by both forest managers and sponsors

→ **NOTE 1:** Sponsors must not be described as ‘owning’ the ESR impact. The correct language, as stated in ‘Do Not list’ in module C in [FSC-GUI-30-006b](#), must be used.

→ **NOTE 2:** Target 15 (GBF) is applicable only for certificate holders that conform with Clause 11.8.b in [FSC-PRO-30-006 V2](#).

* If applicable, and up to the self-assessment of the certificate holder.
